

Shantae Paper Model Instructions

Materials - You'll need scissors, a knife for scoring fold lines, and "tacky" glue for assembly.

Printing - print all three pages of the model using thick cardstock. 67 lb. paper is a good thickness. You can get it at an office supply store. Normal paper is about 20 lbs.

Tips - Use an "X-acto" Knife or other knife for scoring fold lines. Lightly cut into the paper to make it easier to fold. Practice on some scrap paper to get a feel for how lightly you need to cut.

Use "Tacky" glue for fast, strong adhesion. Tacky glue can be bought at craft stores. When using the

glue, apply it to a tab, and then smooth it lightly with your finger -- now the glue will set and dry very quickly when touched with the other paper surfaces. If you don't wipe the excess glue off the surface, you will need to hold the pieces together longer while it dries. When gluing large surfaces together (such as Shantae's pony tail), there is no need for wiping. In fact, the wet glue will give you time to slide the pieces until they overlap nicely, with no white showing.

Instructions - Cut and score all of the pieces from the printed sheets. Use the Scoring Guide below. Use the Illustrated Assembly Guide to glue.

Fold-Scoring Guide

- score on **red** lines

1. Waist Assembly

2. Back Brace

Glue the Internal Back Brace to the inside of the Chest Back piece.

3. Chest Sides

Glue both Chest Sides to Chest Back.

4. Finished Chest

5. Leg Top

Glue bottom flap last.

6. Pants Bottom

Dot indicates front of leg

7. Foot

8. Bottom Torso

mid-chest plate

9. Arm

10. Sleeve Assembly

11. Sleeve Assembly

Cut this side away...

12. Sleeve Assembly

...like this!

13. Hand

14. Assembled Arm

15. Assembled Torso

16. Head

Start gluing it like this!

17. Head

18. Pony Tail

19. Front Hair

20. Ears
